

Children's HealthSM Nurse Advice Line

The Right Care at the Right Place at the Right Time

The URAC accredited Children's HealthSM Nurse Advice Line is one of the value-added benefits available to all Pediatric Partners members. The Nurse Advice Line is an after-hours service staffed by experienced pediatric emergency triage nurses.

The goal of the Nurse Advice Line is to provide quality advice while enhancing the continuity of care through detailed communication between primary care and after-hours service providers.

The nurses will:

- Ask about a child's symptoms
- Provide urgent and non-urgent care advice
- Refer patients to an Emergency Department or urgent care provider of your choice, if needed

The Nurse Advice Line staff does not diagnose but provides care advice. This advice is based on Barton Schmitt guidelines. Physician members also may customize guidelines with standing orders for the nurses.

For more information about the Nurse Advice Line, contact your Integrated Network Advisor or call 844-456-HELP (4357).
